

Superforts Last Two Manchurian Factory Targets

WASHINGTON, Sept. 8 (AP)—Big American B-29 Superfortresses struck today at "important industrial targets" in Japanese-dominated Manchuria, the war department announced, and the Tokyo radio indicated that the targets were the factory cities of Antung and Anshan.

The new assault by the mammoth bombers against Japan's war-making potential was announced by Gen. Henry H. Arnold, chief of the army air forces and chief of the 20th bomber command, which guides operations of the B-29's.

It was the eighth attack mission by the big four-engine bombers which operate from secret bases far back in the China-Burma-Thailand theater.

Tokyo radio broadcast a communique from the Japanese Kwangtung army headquarters saying that 100 "large" American planes, the description of the Superforts, attacked Anshan and Fushan, industrial centers of Manchuria, at 1:59 p. m. Japanese time, and that at least three of the American planes were shot down.

The Tokyo radio admitted that "some damage" had been done to the plants in the area.

Arnold did not disclose the number of planes taking part in the raid, nor did he identify the exact locations, but promised that "further details will be released" as soon as additional information is available.

The Tokyo radio, however, reported that up to 40 American planes of a "large type"—a plane and the Superfort—had hit the important industrial cities of Antung and Anshan, the latter which hit B-29 bombs in a previous raid six weeks ago.

One broadcast, directed in English to the south Pacific and broadcast by POC monitors, said the formation composed "several tens of large planes."

Another broadcast, heard in London, said the formation consisted of at least 30 to 40 aircraft.

2 PAUL BROTHERS KILLED BY ACTION

RUMPERT, Sept. 8 (AP)—Within two weeks Mrs. R. B. Sheen, 34, has received word of the death of two sons, serving in the U. S. Army, and of the death of a third son, killed in action.

Mr. Open Sheen, 32-year-old marine, met death in the south Pacific according to a message from his parents yesterday. The communication stated that time before his death could not be given for military reasons.

The young marine enlisted shortly after Pearl Harbor and at last night's death was serving on Saipan.

On Tuesday of this week Mr. and Mrs. Sheen received notification of the death of Paul, 21, army aviator, who was killed in action as a missing after the first day of the Normandy invasion. Paul was killed on Nov. 21, 1943, and received special training in England in January of this year.

The condition of Paul, Earl J. Sheen, who suffered a serious head injury while in gunnery training with the air corps at Guilford, Miss., was reported as "stable" and "improved."

The parents of the two servicemen are survived by six brothers, Pvt. Earl Sheen; Robert V. Sheen, 21, army aviator; and six sisters, Mrs. Kathleen Sheen; Mrs. Marie Johnson; Mrs. Ruth; Mrs. Norma Deane; Mrs. Rayon Haden; Paul, and Mrs. Florence Bick, Perth.

Finns in Moscow To Draft Peace

MOBOW, Sept. 8 (AP)—A 14-man Finnish delegation, headed by Premier Antti Rintanen, was in Moscow today to begin negotiations for a peace treaty with a Russian delegation, which had been in Moscow since Sept. 1, to discuss the terms of the peace.

The Finnish delegation, consisting of 14 men, including Rintanen, arrived in Moscow yesterday and set up quarters in the city.

The Russian delegation has had a long history of negotiations with the Finns, but no peace has been reached.

The Finnish delegation is expected to stay in Moscow for several days.

Willow Run Halts As Workers Strike

By The Associated Press
AMERICAN LEAGUE

WASHINGTON, Sept. 8 (AP)—The Willow Run bomber plant was closed today as workers staged a strike in protest against a proposed wage increase.

The strike, which began today, was the first in the history of the Willow Run plant.

The workers are demanding a 10 percent wage increase.

The plant is owned by Ford Motor Company.

To Reich Invasions Smash Way Victory Forecast by November

Defeat

U. S. Near New Entry Into Reich

By ELKAN PACKARD

ROME, Sept. 8 (AP)—The battered German 19th army was making intense rear guard stands through south central France today for the first time in nearly two weeks but failed to halt fast-driving American and French troops now within 40 miles of the Belfort gap into Germany.

The German 19th army, which had been fighting since the Battle of France, was now fighting a rear guard action to delay the advance of the American and French forces.

The German 19th army was now fighting a rear guard action to delay the advance of the American and French forces.

2,000 BOMBERS POUND GERMANY

LONDON, Sept. 8 (AP)—As Gen. Dwight D. Eisenhower's four allied armies against the Siegfried line for a knockout punch today, a dispatch from the invasion commander's headquarters declared the end for Germany may come by early November.

The attack carried out within 25 miles of the German frontier at three places—north of the canal, close to Liege in Belgium and at Metz in France—and the second army of Gen. Alexander M. Patch moving up from the Mediterranean completed the line of threat by reaching Desfontaines, 60 miles from the Belfort gap just above Switzerland.

British troops of the second army poured across the Albert canal, whose objectives were taken within 10 miles of the Dutch border and 25 miles of the German frontier.

Tonight Eisenhower's headquarters clamped a tight news blackout on developments, sure to bring sweeping developments in the past.

Judging Ends at Fair; Displays to Continue

FILER, Sept. 8 (AP)—With all judging completed and winners announced, the 1944 F. F. A. Junior Fair today in session here displayed their projects and entries today and these will remain on display through Saturday, officials said.

The fair, which is held annually, is a major event in the community.

The fair is held at the F. F. A. Junior Fair grounds.

2 Boys Suffocate In Unused Icebox

GODFREY, Sept. 8 (AP)—Two brothers, Robert V. Godfrey, 10, and John Godfrey, 11, were found dead today in an unused icebox in a vacant house in Godfrey, Pa.

The boys were found by a neighbor who reported the discovery to the police.

The police are investigating the cause of the deaths.

HOW THINGS APPEAR FROM PEGLER'S ANGLE

PEGLER'S ANGLE

NEW YORK—President Roosevelt has announced that he will make a political speech on Sept. 23 at the annual dinner of the steamers union.

Uncle Sam's President is expected to make a side-by-side comparison of the White House and the White House of the South.

It is for the rat of you when you are weary of the strain of detouring labor's gains.

And his two kids, Frank and Fred, on the union pay roll at \$10,000 a year. Why that is a side-by-side comparison of the White House and the White House and of a little blue house.

[illegible]

the occasion would call for some remarks about as follows:

Well, you mugs, so you are going to support me in the election, are you? Do you know any more jokes?

Who else would you support? You know what that Dewey did to some

in Seattle? How is your interstate boycott against California beer getting along?

Do you know what we would do to anyone but a unionizer for doing what you have done?

Do you know how come you were able to get away with it? Take a

at your crowd up in New York, don't you? He socked them away in the South for racketeering and that is just what he will do to a lot more

[illegible]

Florida and, while Old Dan goes down the hall to see a fellow, you would to appreciate the attitude of the teamsters' guard, taken out of their wares, to lay him a royal wim.

You are, completely with furniture, servants, upkeep and all But Dan heard that Jimmy Petelin had to pay income tax on a house he owned, so, he declined, but they bought the joint, anyway, and use

little kids in baby box being classified as learners.

Well, I have a go to. We understand each other and the public is kidded and you are getting yours.

You are, adding me to your mug.

You had better support me, if you don't, there comes your racket.

Now get out these and the you stuff.

EDSON'S VIEWS ON DOINGS IN WASHINGTON

The made story of the big blow-up in the war production board, ending in the resignation of Vice Chairman Charles E. Wilson and the sending to China of Chairman Donald Nelson, has been a very interesting one.

Nelson policies. Nelson's trip to Russia didn't help this situation.

It was logical that Wilson should rely on the organization that he had helped to build and to discard the remnants of the former Nelson or-

BOTTLED OPEN EAST IDAHO FAIR

—BLACKFOOT, Sept. 8.—Gov. C. A. Holtzman will be the featured Idaho state fair here today, Sept. 12, according to announcement today by J. K. Smith, manager of the fair.

The trigger, in accepting the invitation to inaugurate the five-day agricultural exposition, is returning to the scene of a memorable potato picking contest of a few years ago with the governor of Maine.

To Attend Fair

Gov. Holtzman will arrive at the opening afternoon session of the fair, and attend the first day of fairs.

General plans for the fair, in the opinion of the fair manager, and large numbers of livestock entries are expected. Pen and stall reservations are being to open into the fair office.

Smith said the fair grounds had been sold for the first time this month after over a hundred fair bids.

Frank F. "Pop" McKay, secretary of the fair, said that the fair would be a success. He said that the fair would be a success. He said that the fair would be a success.

Among breeders of beef, but also dairy cattle and sheep, have already made reservations are George C. Glavin, of the state; Boudin Farms, P. H. Jensen, Agri. Buck, C. P. Kirksey & Son, of Idaho Falls; Mackay, of the state; W. O. Stewart, Fred Beattie, H. W. Beattie, P. Thorne Beattie.

Mr. F. "Pop" McKay, secretary of the fair, said that the fair would be a success. He said that the fair would be a success. He said that the fair would be a success.

RURAL FIRE WARRIORS STILL IMPORTANT

Almost every Idaho farmer will remember the hectic days of 1942, when all of Idaho was organized to fight the fire danger. The state and similar war causes. The enemy raids have been materialized. But for two years, the fire danger of those volunteer crews which were organized in 1942 has been a practical down-to-earth job of controlling fires which occur in their communities.

This type of control is particularly important at this time, for regular fighting against fire is demanded. Equipment and labor are needed. The fire danger is a tractor in the barn or forage on the range is necessary for the orderly advance of the fire food production activities. Consequently, the fire danger is a tractor in the barn or forage on the range is necessary for the orderly advance of the fire food production activities.

Equipment is Available

Some fire control equipment for use by community groups and individuals is now available. Indian fire pumps are being sold in large quantities. These pumps are also being sold without restrictions. Carbon tetrachloride based chemicals can be used in the home. These chemicals are also being sold without restrictions. Carbon tetrachloride based chemicals can be used in the home. These chemicals are also being sold without restrictions.

Community Tips

Particularly in New Pecos county, community fire equipment is being developed. These units include fire pumps, fire extinguishers, and fire hoses. These units are being developed in New Pecos county. Soldiers and Civilians Will Eat These Turnips

Mr. R. H. Butler, who lives south of Kimberly, operates the biggest turkey farm on the south side of the Snake river. Some of his birds, which this year will grace service as well as civilian tables Thanksgiving and Christmas, are shown in the above photo. Mrs. Butler and young son may be seen in the center of the picture. The Twin Falls Junior Chamber of Commerce is closely watching and is making a study of this industry.

Jaycees Watch Turkey Brood Of 4,000 for Future Growth

One industry in Twin Falls county bears watching—and that's just what Junior Chamber of Commerce officials of Twin Falls are doing in the case of the turkey venture of Mr. R. H. Butler, south of Kimberly.

Mrs. Butler operates the biggest turkey farm on the south side of the river, and if present expectations pan out, her turkey nest this year will be the largest group in the valley, numbering some 4,000. This year her turkey number 2,500 while two years ago she raised 400 and in 1943 she had 700.

Mr. Butler has a ready market in the federal government, which is taking turkeys for the armed forces to use. He said that time they will go for civilian use.

Few Simple Tricks Make Easy Task of Keeping Frozen Food

SELECT and freeze foods of good quality. Varieties and maturity are important. Meats and poultry should be tender. Freeze vegetables before the natural sugars have had a chance to starch.

"Quarantine freshness" and flavor can be obtained in fruits and vegetables by freezing immediately after harvest. Gather produce in the cool of the morning, handle quickly, prepare in a clean place, and place in freezer containers as soon as possible.

Package at Once

PACKAGED immediately in moisture-vapor-proof containers. All packages should be labeled, dated, and an inventory kept of the supply.

When packaging dry pack which is not solid, the container should be filled to the top and sealed before freezing. When using solid materials, such as meat, poultry, or fish, the container should be filled to the top and sealed before freezing. When using solid materials, such as meat, poultry, or fish, the container should be filled to the top and sealed before freezing.

Vegetables should always be blanched, and may be either dry pack or brine pack to prevent color loss.

Butter, cream, eggs, poultry, meat, fish, are good and game may all be frozen satisfactorily if of a good quality, and careful attention is given to the freezing preparation and packaging. Ice cream and frozen fruit can be made or purchased in plastic.

COOKED FOODS may be frozen in blocks, pie fillings, ice cream, cakes, and bread may be prepared weeks in advance for harvest crews or for family use. The same precaution in packaging to prevent drying out.

COOK vegetables directly from the frozen packages in a small amount of boiling water or by steaming. Corn on the cob and large solid packs of beans or beef green may be partially thawed before cooking.

Meat may be thawed first or cooked frozen. If cooked frozen, allow extra cooking time. It will produce less shrinkage loss, and will give a more tender juicy product.

Frozen fruits, such as berries, etc., should be placed on the shelf of the freezer and not in the bottom. They will freeze better and retain their flavor to serve very cold while still containing dry crystals. This gives a firm texture, and a more natural color. Fruits or juices for jelly or cranberry sauce may be cooked without thawing.—Robert Bedford, Agricultural Engineer, Experiment Station.

HOME CANNING OF TOMATOES URGED

"Save all the tomatoes you can—and can all you save," is the advice of R. R. Bennett, victory garden specialist of the University of Idaho, who has been making a tour of victory gardens in Idaho and found marked loss of tomatoes from the garden to the table.

The area around Mountain Home is suffering the greatest loss of tomatoes, said Bennett. These gardeners were able to box off their tomatoes and go into the market. The area around Mountain Home is suffering the greatest loss of tomatoes, said Bennett. These gardeners were able to box off their tomatoes and go into the market.

Proper Handling Essential To Insure Top Quality Hay

Hay probably varies more in quality than any other harvested food crop grown on Idaho farms. Quality in hay means feed value. At the present time, feed grains are high in price. On many farms, substantial savings in the cost of producing livestock and livestock products can be made by giving proper attention to the making of high quality hay and by feeding more good hay and less grain per animal unit.

The making of high quality hay calls for cooperation from the weather man. However, favorable weather alone does not make good hay. The hay maker must also cooperate with the weather man. It is well, therefore, to recognize certain factors influencing the quality of hay, which are definitely within the control of the hay maker.

The important physical factors of quality that can be readily controlled by the producer are: the stage of maturity or ripeness of the hay when cut; the size and pliability of the stems, and the amount of the hay when cut.

Hay cut when it is too ripe will contain less leaves and less protein than hay cut during an earlier stage. The highest percentage of leaves in the hay is obtained when the hay is cut in the bud stage. However, this does not mean that the hay should be cut too early. The hay should be cut when it is in the bud stage.

The highest percentage of leaves in the hay is obtained when the hay is cut in the bud stage. However, this does not mean that the hay should be cut too early. The hay should be cut when it is in the bud stage.

Good alfalfa is closely correlated to the individual items in production. The leaves of alfalfa contain approximately 70 per cent of the crude protein of the stem. High quality alfalfa, hay should have around 16 per cent of protein.

The natural color of hay offers an index to the amount of bleaching that has occurred. The hay should be a bright green color. The hay should be a bright green color. The hay should be a bright green color.

Butter, cream, eggs, poultry, meat, fish, are good and game may all be frozen satisfactorily if of a good quality, and careful attention is given to the freezing preparation and packaging. Ice cream and frozen fruit can be made or purchased in plastic.

WITH THE Farmer's Daughter

I guess we probably belong to just about the most wonderful dog family in the world. I have a dog named "Buddy" and he is a real good boy. He is a real good boy. He is a real good boy.

Butter, cream, eggs, poultry, meat, fish, are good and game may all be frozen satisfactorily if of a good quality, and careful attention is given to the freezing preparation and packaging. Ice cream and frozen fruit can be made or purchased in plastic.

LUNCH PLAN FOR SCHOOLS SKIVED

BOISE, Sept. 8.—The completion of the lunch plan for schools in Idaho has been skived. The plan was to have a lunch plan for schools in Idaho. The plan was to have a lunch plan for schools in Idaho.

The signing of the agreement now calls for direct action by the state and local school boards. The plan was to have a lunch plan for schools in Idaho. The plan was to have a lunch plan for schools in Idaho.

Lunches for All

Chatham explained that through the plan, every child in the state can be afforded the opportunity of having nutritious lunches at school. The plan was to have a lunch plan for schools in Idaho. The plan was to have a lunch plan for schools in Idaho.

Needs Fertilizer

One factor of vital importance to quality in hay, not associated with hay making methods, that should be mentioned at this point is the relationship of available elements in the soil to quality and feed value. Alfalfa hay produced at the Aberdeen branch station in 1941 contained 0.18 per cent of phosphorus when grown on untreated soil, with a phosphorus application of 100 lbs. per acre, the phosphorus content of the hay was increased to 0.14 per cent.

Similar Program

The plan agreed upon in the operation this year is almost identical to the program operated in Idaho last year, in which it was recognized that state and local supervision was essential in carrying out the program. The plan was to have a lunch plan for schools in Idaho. The plan was to have a lunch plan for schools in Idaho.

4-H GIRLS MAKE RESTYLE CLOTHES

War-time scarcity and high cost of clothing fabrics are serving to develop market initiative and imagination among rural women. The plan was to have a lunch plan for schools in Idaho. The plan was to have a lunch plan for schools in Idaho.

Out at Night Time

The two most important factors to be kept in mind in the making of high quality alfalfa hay are: the stage of maturity or ripeness of the hay when cut; the size and pliability of the stems, and the amount of the hay when cut.

High Quality Alfalfa

Good alfalfa is closely correlated to the individual items in production. The leaves of alfalfa contain approximately 70 per cent of the crude protein of the stem. High quality alfalfa, hay should have around 16 per cent of protein.

Social and Club News

Fair Theme Favorite of Groups Planning September Activities

Appropriately enough, "fairs" continued to take the spotlight in plans for events for the numerous Twin Falls groups held meetings the last of the week. Even as the county fair and rodeo at Filer are headed for closing sessions Saturday, many persons who have thronged the fairgrounds this "fame away" with novel interest at their own miniature fair celebrations. Prominent "fair" events scheduled include one planned for Twin Falls high school instructors next Tuesday evening at the home of John D. Platt, principal, and the Victory Garden Fair planned next Friday, Sept. 15, under the sponsorship of the executive board of the Y.W.C.A. with all groups having organization in the "Y" to have a part in staging the affair.

Other week-end activities scheduled include two early autumn picnics at the city park, where hundreds of picnic gatherings have been staged during the past summer months. Highland View members will meet there at 3 p. m. for a "desert picnic" and the city club members and members of the Pickett's Progressive class of the Methodist church will entertain their members at a picnic dinner immediately after church services Sunday. All officers and teachers of the Sunday school are to be special guests.

And anticipated for Sunday afternoon by music lovers of the area is a picnic picnic at the city park. Mrs. Hoover will entertain at 2:30 p. m. at the high school. A dinner offering will be given with proceeds to go to the Red Cross.

Instructor at the Dana Hall school music department, Wellesley, Mass., Mrs. Hoover has spent the summer months visiting her parents in the city. Mrs. Hoover has also served as an instructor in the piano minor department at the Dana Hall school of Music in New York City, where she received her diploma.

Her program Sunday will include selections by Griffis, Debussy, Brahms, Beethoven, and others. The program will be given by one by Bach-Bolton. Others will be Mrs. William Scott, Miss Patricia Smith, the Marys, Mrs. North and Mrs. Barbara Meyer.

Plans to help in the Victory Garden fair were made by members of the Girl Reserves Wednesday night at their first meeting this year.

"These girls are in charge of gathering food that farmers and city gardeners have left over after their harvest. This food is to be sold at the Victory Garden fair on the Methodist church lawn Saturday, Sept. 16, from 1 p. m. until 5 p. m. The Girl Reserves are also in charge of the fair and from the proceeds will draw little trinkets donated to the fair.

People who have excess fresh food have been asked to donate it to the fair. This food is to be taken to the Methodist lawn Saturday morning. Those who cannot deliver it to the fair should bring it to the Y.W.C.A. for help in transportation.

Miss Audrey Smith, president of the Girl Reserves, presided at the meeting. Mrs. Jean McLeod, who is appointed chairman of the committee to gather the food with Phyllis Peterson, Shirley Yoon, and Graham, and Rachel Olmstead to help her. Miss Pauline Brown, head of the committee for the fair, with Norabelle Everhardt and Barbara Lebeck as assistants. Miss Shirley Miller is in charge of advertising.

Miss Edna Reserve meeting will be held Wednesday, Sept. 13, in the "Y" rooms for completion of plans for the fair.

A festive "fair rodeo" for Twin Falls and high school instructors is scheduled for Tuesday evening at the home of John D. Platt, principal. The yard of the Platt home will be transformed into a rodeo arena for the event, which will feature roping, riding, racing and a hamburger and ice cream stand. Committee in charge includes Mrs. Platt.

Dean of Women From Moscow Will Visit Here

Anticipated with interest by University of Idaho students here next Friday, Sept. 15, of Louise Carter, acting dean of women who succeeds Beatrice Olson, granted a year's leave of absence according to information from Mrs. Rose M. North, dean of girls at Twin Falls high school.

At the same time, Mrs. North invited all parents of girls planning to attend the university's opening, as well as girls themselves, to call on Dean Carter at her home in the Twin Falls high school building during the day next Friday.

Before her departure, Dean Carter will visit Gooding and Shoshone schools Thursday, Sept. 14, and the Rupert and Pocatello schools Friday, Sept. 15.

Dean Carter is a high school girl who expect to enroll at the school as freshmen this year. She is the daughter of Mrs. J. H. Carter, of the city.

Fairfield WSCS Elects Officers

FAIRFIELD, Sept. 8.—Mrs. Margaret Oliver, president of the Fairfield W.S.C.S., has elected the following officers for the year 1944-45: Mrs. F. C. Muffly, president; Mrs. F. C. Muffly, vice-president; Mrs. F. C. Muffly, secretary; Mrs. F. C. Muffly, treasurer.

The officers were elected at a meeting of the Fairfield W.S.C.S. held at the home of Mrs. F. C. Muffly.

The officers were elected at a meeting of the Fairfield W.S.C.S. held at the home of Mrs. F. C. Muffly.

The officers were elected at a meeting of the Fairfield W.S.C

A labor shortage is anticipated in these areas and possibly Ada county as the peak in orchard crops will occur at the same time as the corn, onion and potato harvests.

Woman Is Manager
SHOSHONE, Sept. 8.—The Swift Creamery here has a new manager, Mrs. Audine Delrymple, Dietrich. L. A. Scott, formerly manager, is now employed by Jack Christensen.
